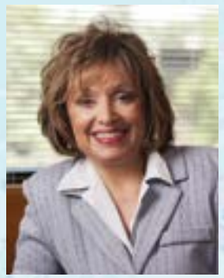
WINTER CLASSES INSIDE

Washtenaw Community College
From Here to Career

Welcome to *Launch*



From open doors to open minds, we believe that when you start at Washtenaw Community College, your career opportunities are endless. I invite you to learn more and find out how we can help you get from "Here to Career" by exploring the programs we offer, the classes we teach and careers we help jumpstart in this edition of *Launch*.

More than 18,000 students register for classes at WCC every year. They join us with diverse backgrounds, goals and challenges. Their success becomes our success and I'm excited to share these stories of personal triumph and achievement with you.

Whether you want to transition into a new field, hone your skills, or are looking to start classes with plans to transfer to a four-year institution, you can find what you need at WCC. With more than 120 degrees and certificates, an open door admission policy and affordable tuition rates, we can help you get started down the right path on your educational journey. For your convenience, we've listed the classes we will be offering this winter within this magazine.

So dive into *Launch* and start planning your future at WCC now. We look forward to seeing you on campus or getting to know you "online."

With Warm Regards,

ADA/EEO/Title IX/Section 504 Compliance Statements

Washtenaw Community College does not discriminate on the basis of race, sex, color, religion, national origin, age, disability, height, weight, marital status, or veteran status in provision of its educational programs and services or in employment opportunities and benefits. WCC is committed to compliance in all of its activities and services with the requirements of Title IX of the Educational Amendments of 1972, Public Act 453, Section 504 of the Rehabilitation Act of 1973, Title VII of the Civil Rights Act of 1964 as amended, Public Act 220, and the Americans with Disabilities Act of 1990.

Inquiries concerning programs and services as they relate to Title IX and Section 504, and the Americans with Disabilities Act should be directed to the Office of the Associate Vice President of Student Services, room SC 275A, Student Center building, 734-973-3536. Inquiries regarding compliance in employment should be directed to the College Affirmative Action Officer in the Office of Human Resource Management, room 120, Business Education building, 734-973-3497. Inquiries concerning access to facilities should be directed to the Associate Vice President of Facilities Development and Operations, room PO112, Plant Operations building, 734-677-5322.

Title II Student Right to Know and Campus Security Act Compliance Statement

The Student Right to Know and Campus Security Act of 1990 is a federal law that mandates the disclosure by all institutions of higher education of the rates of graduation, the number of incidents of certain criminal offenses, and the default rate for student loans. The law also mandates that information be provided on the type of security provided on campus, the pertinent policies regarding security on campus, and policies that record and deal with alcohol and drug abuse. Washtenaw Community College is in full compliance with these provisions and provides the required information annually through college publications. Inquiries concerning the Student Right to Know and Campus Security Act should be directed to Washtenaw Community College, Office of the Associate Vice President of Student and Academic Services, room SC 247, Student Center building, Ann Arbor, MI 48105-4800 (telephone 734-973-3536).

Washtenaw Community College is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools, 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604-1413 *www.ncahlc.org.*

Cover image by Rob Woodcox, owner of Rob Woodcox Photography and 2012 graduate of WCC's Digital Media Arts program. Title: The Celebration Art

Artist's statement: This image was taken to celebrate creativity and expression. As an artist, it can be extremely challenging to find direction amongst the swift currents in life, yet I'm always filled with an excitement to just create. I wanted to express that explosive passion to spread light, joy and color in the world, and to encourage people to embrace the art of living celebratory lives, always sharing and creating to make the world a better place.

Lights, Camera, Action

Former WCC student is making his mark

Elliot Dickerhoof is on his way to becoming a Hollywood success story.

The former Washtenaw Community College digital video student is a successful freelance writer, director, producer, and editor in the movie mecca of the world—Los Angeles.

While working for actor Will Farrell's production company Funny Or Die in 2010, Dickerhoof created his own web series, "First Dates with Toby Harris," and sold it later that year to Yahoo.

Accolades received

That first season he wrote half of the web episodes and directed all of them—millions viewed them on *Yahoo Screen*. The show went on to receive the "Best Web Series" at the Palo Alto International Film Festival in 2012.

"The timing was perfect for the show. I was the writer, director, and editor. It was a great experience for me," says Dickerhoof.

WCC program credited

Dickerhoof left WCC in 2004 to continue his studies at Columbia College in Chicago. But he credits the Washtenaw digital video program with giving him the tools and encouragement to follow his dream.

"WCC was the place where I actually started learning for the first time. It gave me the confidence that I could be successful in a very demanding and competitive field," says Dickerhoof. "I am going to continue to grow in my profession. I truly believe that WCC's video production program is ahead of its time."

To learn more about the WCC digital video program visit *www.wccnet.edu*.

Film Producers and Directors

Median Pay: $68,440 per year

Job Outlook: Employment of producers and directors is projected to grow 11 percent from 2010 to 2020, about as fast as the average for all occupations. Job growth in the motion picture and video industry will stem from strong demand from the public for more movies and television shows.

Information from *www.bls.gov*

WCC student brings home Emmy

Imagine winning an Emmy Award for your school project.

That is what happened to Brad Tennant who wrote, directed, edited, and created the musical score for "I'd Live for You." His short film about a love-struck Grim Reaper is a 2013 Michigan Emmy Award winner.

Tennant, who lives in Ypsilanti's Depot Town district, had no prior film experience before enrolling in WCC's Digital Video program. Classmates Ben Armes, Garrett Sammons, and friend Adam Johns were a big help in making the award-winning film.

Student Reaches Goals with Military Precision

Robert Andrew Nelson's path to a Washtenaw Community College associate's degree included a few twists and turns.

It began in Lindale, Georgia where he went straight from high school into the Marine Corps. His objective: to serve his country and pay for college. While assigned as a Signal Intelligence Corporal in the 3rd Radio Battalion in Kaneohe Bay, Hawaii, Nelson was deployed to Afghanistan for 10 months in support of Operation Enduring Freedom.

"The Marine Corps does a good job, but nothing can prepare you for that kind of adrenaline trip. It was a seven days a week, 12 hours a day job," said Nelson.

After five years of service and an honorable discharge, he returned to Georgia and eventually moved with his wife to Michigan and enrolled at WCC.

He quickly zeroed in on his studies and his goals and in 2012 graduated with a perfect 4.0 grade point average.

In between classes, he helped found the WCC Student Veterans Club and served as its president. He also provided direction for the college's Phi Theta Kappa Honor Society as its Vice President of Leadership.

He applied to Columbia University, Harvard, and New York University—and was accepted to all three. "I wanted eventually to go to law school and pursue a career in politics because it has become natural for me to want to serve my country," said Nelson.

Today he is pursuing a political science degree at Columbia University and encourages other students to pursue their goals. "If you have purpose, anything is possible," he said. "School has given me a new purpose, which has driven me to try to excel in everything that I do."

"School has given me a new purpose, which has driven me to try to excel in everything that I do."

Front and Center

WCC Veterans Center is here to serve

The Veterans Center at Washtenaw Community College is a "one-stop shop" for academic, benefit and support services. The Center's doors are open to military veterans, active duty personnel, their spouses and dependents, as well as students in the National Guard or Reserves.

Resources offered include access to Veterans Administration tuition benefits, specialized academic advising, student organizations, community events and employment opportunities. VA representatives are available to discuss vocational opportunities and VA health benefits. VA educational benefit certification also takes place there.

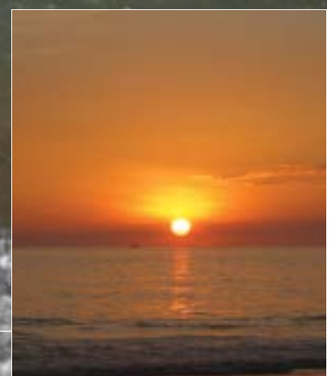
"The Veterans Center at WCC is a great resource," said Lee Dawson, a veteran and recent WCC graduate. "It helps veterans get the kind of support they need when dealing with issues like post-traumatic stress disorder, finding a career path, or transitioning from active military life to civilian student life.

"My experience at WCC is absolutely phenomenal," adds Dawson. "Coming here was the smartest decision I could have made."

Military Friendly

WCC has been named a 2014 Top Military Friendly School. The 2014 Military Friendly Schools® list honors the top 20 percent of colleges, universities and trade schools in the country that are doing the most to embrace America's military service members, veterans, and spouses as students and ensure their success on campus.

"This trip helped open my mind to new cultures. It also helped my study habits because of the accelerated courses I took."



Travel and Learn

WCC offers a world of opportunity

Exotic Costa Rica was the destination for seven Washtenaw Community College students this past summer. In addition to earning WCC foreign language credit, the students experienced a unique cultural immersion that included visits to a volcano and the many beautiful beaches that dot the scenic coastline. Living with local families allowed the students to further enhance their Spanish language skills.

A learning partnership

The trip was part of the WCC Study Abroad program, in partnership with AHA International, an academic program of the University of Oregon. WCC also offers a Global Studies Associate in Arts degree with an open, inclusive, international perspective through the study of human cultures, history, and language.

Andressa DaSliva is studying business at WCC with plans to go into international business. "This trip helped open my mind to new cultures. It also helped my study habits because of the accelerated courses I took."

"There were so many reasons why our students wanted to go on this trip," said Nancy Ferrario, WCC Spanish instructor and Study Abroad advisor. "For some they had always dreamt of traveling, others wanted to learn about another culture, and others wanted to improve their Spanish. Our students really showed an interest in learning."

New at WCC

Last fall, Washtenaw Community College introduced a new Associate of Arts transfer program in Global Studies. Students seeking careers in fields such as international business and banking, trade administration, import compliance, global marketing, or foreign service will develop a unique, international perspective through the study of human cultures, history, and languages.

Switching Gears

Student lands on right path with automation technology

Tim Turner has been a photographer, a videographer, a gunsmith, a retail manager, a restaurant manager and more. Last year he realized he had "become redundant" at his job and knew it was time to find something that would finally lead to a fulfilling career.

Doing research

Instead of jumping into yet another job, Turner made appointments to talk to instructors, counselors, and the Career Services staff at Washtenaw Community College.

"I made a list of questions to ask each person I spoke with: 'Tell me the state of the industry. What is the pay like? What does it take to get into this field?' I ended up with Automation Technology, which is a rapidly growing field," says Turner. "I like to look at an object and know that I made it."

Through the WCC Career Services department, Turner learned about a grant sponsored by the Department of Defense that the college received. It covered his tuition for a full semester. He has also received WCC Foundation scholarships that covered additional semesters.

The right path

Turner, a resident of Clinton, has enjoyed the experience of coming back to school at this point in his life.

"I wasn't nervous at all about sitting in a college classroom at 48. At WCC there are students of all ages and it is extremely rare that there aren't other students my age in my classes," he says. "I try and show my enthusiasm for learning and hope it rubs off."

Turner quickly got a job, while still in school, at Hines Industries building and balancing machines.

"At 48 I have completely reinvented myself. It feels good and I know I am on the right path," says Turner.

Adult Learners:

Turner has advice for other students thinking about coming back to the classroom, whether it has been a few years or a few decades.

- Take only one class the first semester so you won't get overwhelmed and can concentrate on doing well.
- Take advantage of all the support the college has to offer such as computer labs and tutors.
- Learn about all the grants and scholarships you may be eligible for. College can be very affordable.
- If you have a job, look into all the evening and weekend classes WCC has to offer. It is possible to keep a job while going to school.

Entrepreneurship@WCC

WCC hosts The Small Business Technical Development Center (SBTDC) which provides assistance with market research, training, and business counseling. SBTDC helps business owners search for loans, write business plans, understand merchandising, and explore market strategies.

A program of the Small Business Administration, the SBTDC has been affiliated with WCC for more than 15 years and is one of 10 regional offices throughout Michigan. In addition, WCC's Business Department offers three credit courses to help entrepreneurs define, plan and start businesses:

BMG 101 Entrepreneurship I: Finding Your Opportunity

BMG 109 Entrepreneurship II: Starting Your Business

BMG 209 Entrepreneurship III: Running and Growing Your Business

SPRING CREATIVE GROUP

ANN ARBOR SPARK IGNITING INNOVATION

EASTERN LEADERS GROUP

Entrepreneurial Spirit

Digital media arts students spring into business

Many students at Washtenaw Community College have long had aspirations of starting businesses, and now a new partnership is there to help.

With a shared vision of providing affordable creative services to the community and supporting students wishing to start businesses WCC, Ann Arbor SPARK, and the Eastern Leaders Group have recently come together to start the SPRING Creative Group. Under this cutting-edge project, talented students from the graphic and web programs at WCC establish businesses that provide a variety of branding, print and web development services to the local business community.

Ingrid Ankerson, WCC Media Arts faculty member, supports this project because of the opportunity it provides her students. "We consistently produce exceptional designers and developers who unquestionably have the design chops to succeed, but haven't necessarily been educated in the business of the business," she says. "I love the idea of coaching our students through the whole picture–how to establish a business, write contracts, manage money, and how to find and interact with clients–so that after they're done 'incubating' they're a complete entity, ready to serve the public."

Meet the team

Tim Deglopper, Christopher Collins, and Craig Salajan absolutely have the chops to succeed, which is why they were selected to be the initial SPRING Creative Group team. They've been busy setting a solid business foundation by working with an attorney and an accountant, and learning how to conduct market research. The team developed their own brand, including the SPRING Creative Group logo, business cards and website and have space at SPARK East, in the heart of Ypsilanti's downtown business district.

WCC support continues

Several instructors from WCC's Digital Media Arts program were instrumental in designing the structure that has become the SPRING Creative Group. From helping to establish the types of services that should be offered to hand-selecting the first group of students, the WCC faculty have guided the program. As the SPRING team has eased into taking on client work, they continue to receive support and mentorship from their instructors at WCC.

This guidance has also led the team to get out into the community as they work on developing their businesses. Kristine Willimann, Graphic Design faculty, stresses that "Starting a business is one thing; sustaining your business in order to make a living is another. It is tremendously difficult for graphic designers to start a business fresh out of school without agency experience or connections. I encourage all of my students to attend industry events, join business and design organizations, and meet and mingle with as many people as possible."

WCC Winter Classes Begin January 13

Register for Winter Semester **NOW!**

Finding the right class – at the right time and place – is easy

***What* do you want to study?**

Whatever your interests, you'll probably find a WCC class on that topic.

***When* do you want to study?**

WCC offers flexible classroom options – study on campus, online, or choose a blended class that combines online and in-class instruction.

***Where* do you want to study?**

If you prefer classroom learning, pick the location most convenient for you: our main campus in Ann Arbor; our extension centers in Brighton, Hartland, and Dexter; or another community location.

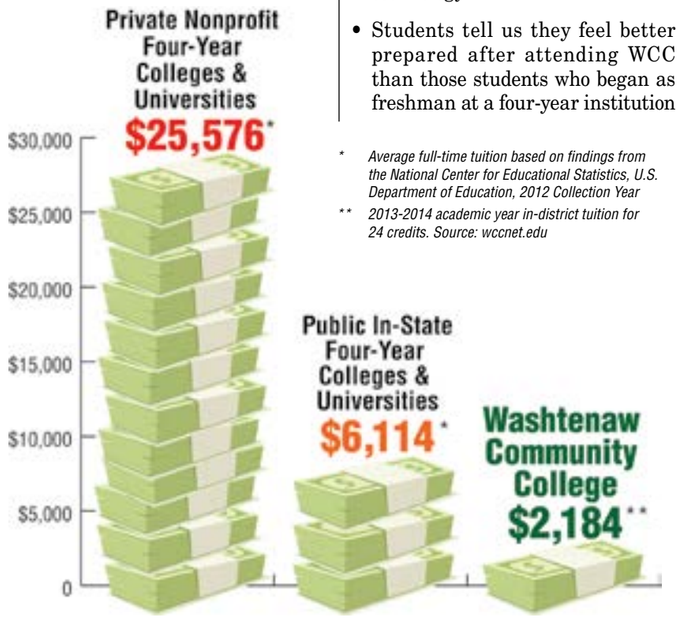
Audio Recording Technology II	MUS 275

Get the best value for your dollar

WCC students pay thousands less in tuition than students at private and public four-year colleges and universities. On top of that, you can save on dorm expenses by living at home. You can save on commuting costs by attending a college near where you live. And, parking at WCC is free!

- Start at WCC and remain here through the completion of a degree or certificate, and you may save enough to cover the tuition costs of your junior year at a four-year university
- Get the benefit of small classes – WCC's average class size is 23, the lowest of local area colleges and universities
- Attentive faculty and top-rate support services help you achieve your best
- We update our curriculum to reflect the changing needs of today's employers, and we are continually renovating our facilities to offer you the latest in labs, equipment, and technology
- Students tell us they feel better prepared after attending WCC than those students who began as freshman at a four-year institution



* *Average full-time tuition based on findings from the National Center for Educational Statistics, U.S. Department of Education, 2012 Collection Year*

** *2013-2014 academic year in-district tuition for 24 credits. Source: wccnet.edu*

Start here, transfer anywhere

WCC is the smart and affordable start for getting your bachelor's degree! In fact, nearly 60 percent of students who come to WCC intend to transfer. WCC makes that transition seamless and easy.

Use our transfer guides to learn which WCC courses are accepted at a four-year college or university that interests you.

Transfer guides are based on the official articulation agreements with four-year colleges and universities. Review them to see the full program of study.

Go *to www.wccnet.edu/transfer* to learn more.

High school students welcome

If you are still in high school, you may be able to start earning college credit now. WCC offers classes at many local high schools, on our main campus, and at extension centers around the region. Learn more about dual enrollment and how it can give you a jump-start to college by visiting *www.wccnet.edu/dual-enrollment*

About $50 million in financial aid offered each year

Financial aid is money available from federal, state and college sources to help you pay your college tuition and expenses. In general, all U.S. citizens and eligible non-citizens, who are enrolled in an approved degree or certificate program, are eligible to receive some type of financial assistance. In addition, WCC offers several tuition payment plans so that you can stretch your payments over the semester.

- Some financial aid does not have to be repaid
- Apply for a Student Resource and Women's Center scholarship by Nov. 28 at ***www.wccnet.edu/scholarships***
- Other financial aid is in the form of low-interest loans
- WCC's Financial Aid office can answer your questions and help you apply for aid
- For more information on financial aid visit *www.wccnet.edu/financialaid* or call 734-973-3523
